# week 1 Javascript Operations

# week 1 Javascript Variables

The image shows the Chrome DevTools interface with the Console tab selected. The top bar includes tabs for Elements, Console, Sources, Network, Performance, Memory, Application, Security, Lighthouse, Recorder, and Performance insights. The Console panel has a filter dropdown set to 'top' and a 'Filter' input field. On the left, there are filters for '32 messages', '32 user me...', 'No errors', 'No warnings', '32 info', and 'No verbose'. The main area displays a list of messages from 'week1JavaScript0operations.js'. The messages include boolean values (false, true), numbers (539, 15, 0, 32, 0, 3520, 46, 29, 12, 1, 63, 6, 100), and an assignment 'Z = 50'. Each message is followed by its source file and line number, such as 'week1JavaScript0operations.js:6'.
